About Solder Chemistry

- Founded in 1994, became part of Indium Corporation in 2021
- Consistent and reliable solder pastes, solders, and fluxes for a wide variety of SMT applications
- Commitment to quality has earned the company several industry-recognized certifications, including ISO 9001: 2015 and ISO 14001: 2015

*The joining of these two companies provides an extended platform for **Solder Chemistry** to further develop our distinctive product offerings and technology. Both companies have a shared commitment to providing customers with a reliable supply of advanced materials, superior technical support, and excellent customer service.*

Each company will continue to offer products and solutions separately via its established sales and service networks.
